PRODUCT ENDORSEMENTS

"Today's culture has become known as 'the screen generation.' Learning comes primarily through seeing. That's why I am so excited about Modern Parables. It offers the truth of God visually in a way that speaks to our modern world. What a great new tool for the church! I highly recommend it."

- Robert Lewis, D.Min., Founder of *Men's Fraternity*

"I have not seen anything so exciting, biblical, and relevant in all my years of publishing curriculum. What makes Modern Parables so unique is its combination of outstanding cinema and solid biblical theology. I believe this unique combination opens up new ways to teach Scripture to believers and seekers."

- Gene Mims, D.Min., author of *The Kingdom Focused Church*

"Compass Cinema's portrayals are by far the most clear, riveting, superbly acted and biblically faithful contemporizations of Jesus' parables that I have ever seen. The DVD comes complete with excellent written materials for individual or group study. I highly recommend this work."

- Craig S. Blomberg, Ph.D., author of *Interpreting the Parables*

"Modern Parables has done something far too rare in the current Christian climate - it has created art with excellence. And that excellence complements the rich content of the teaching and enables it to touch hearts and change lives profoundly through storytelling."

- Doug Powell, Author of *The Holman Quicksource Guide to Apologetics*

"I thought the two lessons were great communications of the gospel. I love the focus on the kingdom."

- John Frame, Ph.D., author of *The Doctrine of the Knowledge of God*

"The excellence with which the films were done, the accuracy of the film to the text, and the emotional connection with how 1st-century hearers would have felt are the three big benefits of this study. This series is a great way to show the undeniable relevance of the Bible to the video culture we live in today."

- Judd Rumley, M.Div, Singles Pastor, Denton Bible Church,

"These short films will let you see the parables of Jesus with new eyes; they will surprise and challenge you as they surprised and challenged Jesus' first disciples. Beyond the films themselves, classes and discussion groups will find excellent resources to facilitate discussion and application."

- Daniel Doriani, Ph.D., author of *Putting the Truth to Work*

"After seeing the films, one is challenged to conceive of a more effective, or even equally effective, means of conveying the original intent....Not only do the stories of these films cause viewers to wrestle with these hard sayings, but the art of the films also demands the viewer to contemplate the story at deeper levels."

- Greg Wilbur, author of *Glory and Honor: The Artistic and Musical Legacy of J.S.*
